REPORT OF ROAD AGENT

MAINTENANCE

The amount of money expended on general maintenance of town roads was severely restricted during the past year by the large increase in winter maintenance in 1956, and also by the reduction in the maintenance appropriation from $11,000 to $10,000 made by the last town meeting.

To show this, the amount spent in winter maintenance for the last six years is given below.

1950	$4,029 46	
1951	4,839 32	
1952	5,860 41	
1953	4,841 02	
1954	5,336 07	
1955	6,759 56	
Total	$31,665 84	
Six year average		$5,277 60

In 1956 the total cost of winter maintenance was $8,425.35, which is $3,147.75 more than the six year average shown above. This was due to the amount of snow fall and icing which occurred in March and April 1956.

Winter maintenance comprises the period from December 1st to April 1st, and last year a considerable amount of snow removal and sanding was done in the month of April and is charged to summer maintenance, which accounts for the unusual increase, (about $1,000), in that item.

As much summer maintenance was done as seemed possible. The total amount of new gravel placed on town roads was 3,330 cubic yards, less than half the amount placed in 1955.

Six new cement tile culverts were laid to replace old ones, or to improve drainage, on Roads 73 and 74, the Templeton road.

Some brush was mowed along the town roads and one bridge was newly planked and guard railed.

OILING TOWN ROADS

About four miles of town black top road was given a seal coat of asphalt.

One and four tenths miles of new black top road was added to the total in use, by putting on farmer's mix and a heavy seal coat of asphalt was put on this.

The highway department mixed and used 160 cubic yards of cold patch in various places.

The Wardens again advocate that the town raise such sums of money to build water holes at different points in town for fire prevention. Having several industries, we feel water supply is greatly needed. We can get plenty of fire trucks through Mutual Aid but without water, they are of no use.

REPORT OF THE PRINCIPAL

To the Superintendent of Schools:

Submitted is my first report as the principal of the Dr. George S. Emerson School.

School Staff

This year there was a rather large turn-over in the teaching staff. For various reasons, it was necessary to obtain replacements for the following teachers. Miss Rebecca Seaver, our former second grade teacher, resigned in June to accept a position in Meredith, New Hampshire. She was replaced this fall by Miss Muriel Britton, who taught in Walpole, New Hampshire last year. Mr. Albert Whitham replaced Mrs. Ruth LaVine as the fourth and fifth grade teacher. Mr. Whitham formerly taught at Munsonville, New Hampshire. Mr. Alvah Niemela replaced Mr. Paul Tucker as the teacher of grades six and seven. He formerly taught at Gilsum, New Hampshire. All of our new staff members are rather recent graduates of Keene Teachers College. The school was fortunate in obtaining these three new teachers for they have all had previous experience in the teaching field. Because of this, our program has not weakened, but has been strengthened considerably.

The school is also very fortunate in retaining the services of two fine and able teachers, namely, Miss Louise Knapton and Mrs. Evelyn Damon.

Curriculum

The most important part of school is the program of studies for it is the focal point upon which the school is built. An acceptable standard is set up and followed as closely as possible. Special emphasis is based upon the 3 R's and through time has proved its importance.

Special Staff

Our special staff is made up of Mrs. Azalea Wilson, Mr. Albert Furlong, and Mrs. Ruth Cumings. Mrs. Wilson is our Music Supervisor and has been for several years past. She is

very able in her field of teaching and very co-operative. Mr. Furlong is our Manual Training instructor and carries on a very constructive program for the boys. Mrs. Cumings is our Home Economics teacher and works in a well balanced program of sewing and cooking, for the girls. Mr. Fred Wilkins is our custodian again this year. He takes very good care of the building and gets along especially well with the children. Special mention must be made of our lunch program. Mrs. Aune Mattson is the manager and is ably assisted by Mrs. Margaret Tommila. They work well into our program with their cooperation. Our School Bus drivers are Mr. Whipple, Mrs. Hill, Mrs. Dorothy Mattson, and Mrs. Aune Mattson. The drivers are very reliable and do a good job in transporting the children to and from school. Last, but by no means least in importance is our School Nurse, Mrs. Jennie Fisher. She has been a great help to the school through her willingness and cooperation.

School Plant

We have a very nice school building and one which each and all should be very proud of. Before school opened in the fall many improvements were made which were badly needed. The building was painted outside and one wing had new shingles put on, inside was nearly completely painted and a new water system installed. Those people responsible deserve a lot of credit for this work because of its importance toward making a good school. It certainly has boosted the pride of the children for their school.

Recommendations

In closing, I should like to urge that a landscaping project of the school grounds be carried out. This would go a long way in helping to prevent accidents plus enhancing the beauty of the school.

It has been a pleasure to work with all those concerned with school. Everyone has been very cooperative and it helps tremendously toward the administration of the school.

Respectfully submitted,
MR. PAUL TUCKER,
Principal.

REPORT OF SUPERINTENDENT OF SCHOOLS

During the past year, the school situation in Fitzwilliam has improved in some important areas but other major problems still remain to be solved. During the past summer two important and long pending jobs were completed. The first of these was the major improvement in the water supply system. The school board employed the services of a capable engineer and followed his suggestions. A 1,000 gallon storage tank was installed along with a 300 gallon pressure tank and a new, powerful submersable pump. The new system appears to be capable of meeting all estimated demands upon it by increased enrollment and use.

The second major improvement was the long delayed re-painting program. During the summer the outside of the building was completely repainted and every classroom was redecorated in attractive colors. This is the first classroom repainting since the building was remodeled.

The major problems still facing the community are: One, the purchase of additional land for future expansion of the building and for adequate playground space. One of the common, and expensive, failures of school districts, is to postpone purchase of adequate space until adjoining property becomes built-up, and then building expansion becomes impossible. It is hoped that Fitzwilliam does not permit this to happen. Problem two continues from last year and is related to the need for additional classroom space. Present rooms are overcrowded by from five to ten pupils and in order to divide approximately 180 pupils among six teachers, each teacher has to teach sections of the same grade. This is wasteful in time and money and should only be tolerated by the community as a make-shift until needed classrooms are available. It would be desirable for the present study committee to be

asked to bring in a report on recommendations for action on this problem at the annual meeting in March, 1958.

Dr. CHARLES L. BOWLBY,
Superintendent.

REPORT OF THE FITZWILLIAM SCHOOL STUDY COMMITTEE

The School Study Committee has met once a month starting in October 1956.

The group concludes acquiring additional land for future school expansion is advisable.

Adjacent property owners have indicated willingness to sell land to the School District.

School census figures for the next 5 years indicate increased enrollment.

Present facilities of 6 classrooms with 6 teachers for 8 grades causes some teachers to divide their teaching time between 2 grades. This inefficient doubling up can only be eliminated if 2 additional classrooms are provided. Parents and pupils have registered dissatisfaction over the necessary division of the grades.

The present teacher load is 10 more pupils than recommended by the state.
